THE LIFE AND THE WORK OF A. L. CHOLESKY

Claude Brezinski

University of Sciences and Technologies of Lille, France

In this talk, we will first present the life of Cholesky (1875-1918), a French officer from the Geographical service of the army. Then, we will show the unpublished manuscript where he presented his method and we will discuss it. The way this method became well known will be explained. The talk will end by presenting the genealogy of Cholesky's family.
